

BE PREPARED

HURRICANE SEASON: JUNE 1 - NOVEMBER 30

Do you know what to do if a hurricane threatens the Rio Grande Valley?

When do you report to work or classes after a storm strikes? Remember, we live in an area that is at high risk for hurricanes, so don't let one catch you off-guard. Formulate your plan, share it with others, and practice utilizing it before an emergency happens.

In the event of a hurricane, and in case you are required to evacuate, keep a few supplies in a durable bag and in an easily accessible place.

- ✓ **Water (one gallon per person, per day)**
- ✓ **Hand Sanitizer**
